ABSTRACT

This document has been developed as a companion to the NCHEMS Statewide Measures Inventory with the objective of assisting individuals in the identification of available sources of data that can be related to postsecondary education planning and decision making in the United States. It identifies and describes a number of publications, articles, and data bases that contain data related to most of the items of information identified in the NCHEMS Statewide Measures Inventory. This document does not contain the actual data, but it does describe and reference various sources where the data can be found. In addition, it provides information about: (1) how the data are organized (for example, item-by-item, in tables, by chapters); (2) the level of aggregation (for example, data on personal income, number of high school graduates, enrollments in postsecondary education institutions); (3) the level of aggregation (for example, by region, state postsecondary education institution); (4) the years for which data are available; and (5) those measured in the Statewide Inventory that correspond to the data reference. The Western Interstate Commission for Higher Education (WICHE) is a public agency through which the 13 western states work together

. . . to increase educational opportunities for westerners.

. . . to expand the supply of specialized manpower in the West.

. . . to help universities and colleges improve both their programs and their management.

. . . to inform the public about the needs of higher education.

The Program of the National Center for Higher Education Management Systems at WICHE was proposed by state coordinating agencies and colleges and universities in the West to be under the aegis of the Western Interstate Commission for Higher Education. The National Center for Higher Education Management Systems at WICHE proposes in summary:

To design, develop, and encourage the implementation of management information systems and data bases including common data elements in institutions and agencies of higher education that will:

- provide improved information to higher education administration at all levels.
- facilitate exchange of comparable data among institutions.
- facilitate reporting of comparable information at the state and national levels.

# ABSTRACT

A Reference Guide to Postsecondary Education Data Sources identifies and describes a number of publications, articles, and data bases that contain data related to most of the items of information identified in the NCHEMS Statewide Measures Inventory (Allman, Wing, and McLaughlin, 1975). This document does not contain the actual data, but it does describe and reference various sources where the data can be found. In addition, it provides information about: (1) how the data are organized (for example, item-by-item, in tables, by chapters), (2) the kinds of information given (for example, data on personal income, number of high school graduates, enrollments in postsecondary education institutions), (3) the level of aggregation (for example, by region, state, postsecondary education institution), (4) the years for which data are available, and (5) those measures in the Statewide Measures Inventory which correspond to the data referenced.

# PREFACE

The primary mission of the National Center for Higher Education Management Systems (NCHEMS) at WICHE is to assist organizations and agencies concerned with postsecondary education with the development of improved procedures and tools for resource allocation and management. A related objective is the development of procedures that facilitate the exchange of comparable data among these institutions and agencies. This document, which has been developed by the NCHEMS staff, reviewed by the staff and the Statewide Measures Task Force, and approved for limited distribution by the Current Projects Committee of the NCHEMS Board of Directors, is intended to further these general objectives.

A Reference Guide to Postsecondary Education Data Sources has been developed as a companion to the NCHEMS Statewide Measures Inventory with the objective of assisting individuals in the identification of available sources of data that can be related to postsecondary education planning and decision making in the United States. Although its primary target audience is state-level postsecondary education planners and decision makers, the data corresponding to the items of information in the Statewide Measures Inventory are of sufficiently general interest that the Reference Guide should also be useful to researchers and planners and decision makers at the institutional, local, and national levels as well.

Since additional documents related to identifying and describing data sources may be developed at NCHEMS in the future, readers are urged to review this Reference Guide and submit their comments, criticisms, suggestions, and references to additional sources of data related to postsecondary education directly to the author (Kathy Allman, NCHEMS at WICHE, P.O. Drawer P, Boulder, Colorado 80302). This input will aid in the future development of NCHEMS work in the data sources area.

## ACKNOWLEDGMENTS

Assistance in the review of the document has been provided by a number of persons. In particular, the members of the NCHEMS Statewide Measures Task Force have been helpful in providing comments and suggestions:

Mr. James Lawrence
Principal Budget Examiner
Division of the Budget
State of New York

Dr. Fred C. McCormick
Senior Consultant
Educational Management
Services, Inc.
Minneapolis, Minnesota

Mr. Charles McIntyre
Chief
College Financial Services
California Community Colleges

Dr. David Murphy
Legislative Fiscal Agency
State of Michigan

Ms. M. Patricia Powers
Computing Center Director
Goucher College
Towson, Maryland

Dr. Joseph L. Saupe
Director of Institutional
Research
University of Missouri

*Dr. Donald S. Stuart
Associate Executive Secretary
New Mexico Board of Educational
Finance

Also contributing to the development of this document were the following members of the staff of the National Center for Higher Education Management Systems: Barbara Baker, Judy Bay, Maureen Byers, Ellen Cherin, Vaughn Huckfeldt, Dennis Jones, Cynthia Labuda, Marilyn McCoy, Jim McLaughlin, Ed Myers, Cheri Pedersen, Nancy Renkiewicz, Clara Roberts, JoAn Segal, Kent Weldon, Dick Williams, and Paul Wing. In addition, Emily Cooper and Betty Lu Rosenberg assisted in proofreading and typing the document.

---

*Chairman of the Task Force

# INTRODUCTION

Postsecondary education planners and policy makers require many kinds of information on which to base their decisions. At the state level in particular this poses problems because state postsecondary education agencies must rely on institutions and other agencies for most of their information needs. Because the data needed are diverse, sources for these data are equally diverse and scattered. This _Reference Guide to Postsecondary Education Data Sources_ (referred to as the _Reference Guide_) addresses these needs by describing in detail a number of sources of data related to postsecondary education that are currently available in published reports and data files in the United States.

This document was conceived as a companion to the NCHEMS _Statewide Measures Inventory_ (Allman, Wing, and McLaughlin [1975], referred to as the _Inventory_), and was funded as part of the Statewide Measures Project at NCHEMS. It was viewed as a way to make the _Inventory_ more useful by identifying sources of data that would correspond to items in the _Inventory_. Although this linkage to the _Inventory_ still exists by virtue of the criteria used in determining which data sources would be included in the document, the variety of sources included in the _Reference Guide_ should make it useful for institutional, local, and national planners, decision makers, and researchers, as well as those at the state level.

# A DESCRIPTION OF THE REFERENCE GUIDE

The Reference Guide is essentially an annotated bibliography of sources of data corresponding to items of information in the Inventory. It does not contain actual data, but rather refers to data sources, describing for each source: the types of information given (for example, data on personal income, number of high school graduates, enrollments in postsecondary education institutions); how the data are organized (for example, item-by-item, in tables, by chapters); the level of aggregation (for example, by state, region, postsecondary education institution); and the years for which data are available. The criteria used for inclusion of data sources, the limitations, and the organization and format of the Reference Guide are described below.

## CRITERIA FOR INCLUSION OF DATA SOURCES

Two criteria have been applied to determine whether a data source should be included in this document:

- the information in the data source must be national in scope, that is it must cover a majority of the fifty states, with state-by-state aggregations of data and
- the data must be applicable to at least one measure in the Statewide Measures Inventory.

These criteria were chosen because a document many times the size of the present effort would be generated if all data related to postsecondary education that are available in published or computerized form were identified.

## LIMITATIONS

Limitations related to the Reference Guide can be grouped into three major categories: the literature search, the level of detail used for the data source descriptions, and the criteria used for inclusion in the document.

### Literature Search Limitations

Data sources described in the Reference Guide may not reflect the most recent publications in a series. For example, some of the U.S. National Center for Education Statistics (USNCES) documents described in the Reference Guide are not the latest ones published. In these cases, the referenced documents should be considered as examples of the kinds of data published in the series. In addition, data sources that meet the criteria may not be included in the Reference Guide because of oversights in the literature search.

### Level of Detail Limitations

No attempts have been made to determine the methodologies used by the data collectors for the different sources. Therefore, modes of inquiry (for example, surveys), the sizes and types of universes and samples under consideration (for example, all higher education institutions as the universe and selected higher education institutions as the sample), and the units of inquiry (for example, individuals, institutions) have not been specified in the Reference Guide. Also, it is incumbent on users of the Reference Guide to make their own quality checks on the data if they are concerned about such things as accuracy and definitions.

## Criteria Limitations

Although the sources included in the Reference Guide cover a wide range of categories and types of information, they do not exhaust the possibilities. The Reference Guide does not include data collected by individual states and small groups of states that were not collected in a comparable fashion for the majority of other states, data collected by individual postsecondary education institutions that are not collected by all institutions in the majority of states, and data that are not reported on a state-by-state basis. These sources were not referenced because of the problems of designing cataloging schemes, the probable size of the document, and the fact that many documents for individual states are not published and distributed widely.

## RELATION TO STATEWIDE MEASURES INVENTORY

The Statewide Measures Inventory has been used as the basic subject classification scheme for the data sources identified in the Reference Guide (see Section I--Measures and Corresponding Data Sources). One limitation of this classification scheme is that the measure names may not imply the full range of data that might be related to them. Therefore, familiarity with the Inventory will facilitate the use of the Reference Guide and aid in determining where specific types of data may be found (for example, data about postsecondary education graduates may be found in measures "2180--Discontinuing Students" and "4030--Instruction Programs, Courses of Study, and Activities - Completions"). The Numeric List of Measures in the Statewide Measures Inventory (p. 2.1.1) and the Alphabetical Index to the Statewide Measures

Inventory (p. 3.1.1) will be of assistance in a particular subject search. Also, some of the relationships between the data and the measures were not as clear-cut as could be desired, and subjective decisions about where the data should be referenced in Section I were required in some situations. An attempt was made to provide enough cross referencing of information so that sources of data of interest will not be lost or buried in the document.

When using the data identified in the Reference Guide in conjunction with the Statewide Measures Inventory, it is important to note that in many cases the definitions used in data sources and the categories used for formatting data are not the same as those described in the Inventory. The discrepancies between the myriad of existing data definitions and those specified in the Inventory were part of the reason for not incorporating the data sources directly into the Inventory under the "Source" headings in that document. It is hoped that ultimately as data are used more there will be incentives for all data collectors to move toward standard definitions of terms such as those suggested in the Inventory. The Reference Guide can be thought of as a short-run expedient to facilitate data compilation and subsequent analysis and application to policy making.

## ORGANIZATION AND FORMAT

The Reference Guide is organized into seven parts. These are:

- Bibliography of Data Sources Contained in the Reference Guide,
- Numeric List of Measures Contained in the Statewide Measures Inventory,

- Alphabetical Index to the Statewide Measures Inventory,
- Section I--Measures and Corresponding Data Sources,
- Section II--Data Sources and Corresponding Measures,
- Appendix A: List of Other Guides to Data Related to Postsecondary Education, and
- Appendix B: Annotated List of Current NCHEMS Documents Related to State/National Postsecondary Education Planning and Decision Making.

Each section is described briefly below.

## Bibliography of Data Sources Contained in the Reference Guide

All of the documents referenced in Sections I and II are listed in the bibliography. The entries are arranged alphabetically by author, publisher, or title, and show the frequency of publication, place of publication, publisher, date of publication (first date of publication for a document in a series, if known), library classification number (U.S. Government Superintendent of Documents call number [SD#], Educational Resources Information Center number [ERIC#], or Library of Congress catalog number used by the University of Colorado library system [LC#]) if known, and number referring to the document's location in Section II. Figure 1 shows a sample page from the Bibliography with a variety of notes to explain the items and notations.

## Numeric List of Measures in the Statewide Measures Inventory

The Statewide Measures Inventory is essentially a list of items of information, along with concise definitions and other information of interest, relevant to statewide postsecondary education planning and decision making. It has been

divided into eight sections:

- General Information About the State
- Student Access
- Manpower
- Programs
- Enrollments
- Finances
- Staff
- Facilities

These sections and measures are listed in numeric order in this part of the Reference Guide, and can be used as a subject index to Section I in conjunction with the Alphabetical Index to the Statewide Measures Inventory. (For information about the definitions and categories of the measures, the Inventory [Allman, Wing, and McLaughlin (1975)] should be consulted.) Those measures that are marked with an asterisk are not contained in the Reference Guide because no corresponding sources of data meeting the established criteria were identified.

## Alphabetical Index to the Statewide Measures Inventory

Measure names and other subject headings are listed alphabetically in this part of the Reference Guide. Cross references are provided to make it easier to determine which measures may be concerned with related data (see Figure 2 for a sample page from the Index). This index should be used in conjunction with the Numeric List of Measures in the Statewide Measures Inventory.

Data source number referring to its position in Section II
Page location in Section II of the data source description
Page location in the Reference Guide

## Section I--Measures and Corresponding Data Sources

Section I specifies currently available sources of data into subject matter areas corresponding to the measures in the Inventory. Each measure for which a source of pertinent data could be identified has a separate page in the Reference Guide. On these pages (identified by the measure number and name) information is provided about corresponding data sources; the data source abbreviation; entry numbers for those tables, chapters, or pages related to the measure; years for which data are available for each entry; and the page location of the data source in Section II. See Figure 3 for a sample page from Section I.

## Section II--Data Sources and Corresponding Measures

In Section II, data sources are arranged alphabetically by their identifying abbreviations and numbered sequentially with each data source starting on a new page (see Figure 4). The following kinds of information, if available or relevant, are provided for each data source:

- an abbreviated reference to the data source,
- the data source number to assist in locating the item,
- a complete bibliographic description of the data source,
- a library classification number (LC#--Library of Congress number, SD#--U.S. Government Superintendent of Documents number, or ERIC#--Educational Resources Information Center number),
- an entry number and/or name, and where the entry is located in the data source (for example, "Table 1.1-33. Residence and migration of all students: all institutions, fall 1963, pp. 78-81," and "School systems, pp. 5-526").

5.1.163

*Abbreviated reference to the data source*

*Section II identifier*

*Data source number*

*Bibliographic description of the data source*

*Library of Congress classification number*

*Primary source from which table was derived*

*Table number*

*Statewide Measures Inventory measure that corresponds with the data identified*

*Information given in the table*

*Geographic areas by which data are aggregated*

*The adjacent table contains data for the year specified*

*Table name*

*Data source number referring to the same (or a similar) document identified in the Reference Guide*

*Location of the table in the data source*

*Page location in the Reference Guide*

- the types of information given in the entry (for example, "IG: registrants scoring 70 or above"),
- the geographic areas for which data in a table are aggregated (for example, nation, region, state or other area, institution),
- the years for which the data are identified in the table,
- the primary source from which the data in a table were obtained, and
- the measures in the Statewide Measures Inventory that correspond to the data identified in the entries.

This set of information about each data source is provided to assist users in the determination of whether a document contains the data desired and if it is worth obtaining from a library or from the publisher.

## Appendix A: List of Other Guides to Data Related to Postsecondary Education

A number of guides to statistical information were encountered in the search for currently available data related to postsecondary education. These guides have been listed in Appendix A to facilitate a search for additional information if the Reference Guide does not suffice in the identification of appropriate data sources.

## Appendix B: Annotated List of Current NCHEMS Documents Related to State/National Postsecondary Education Planning and Decision Making

The State/National Products Unit at the National Center for Higher Education

Management Systems (NCHEMS) develops information systems and analytical procedures and tools that can assist those concerned with state and national postsecondary planning and policy making. Appendix B contains an annotated list of NCHEMS documents that may be of interest to state and national planners and decision makers. It is divided into four sections:

- Final State/National Reports,
- Preliminary State/National Documents or Working Papers,
- Other Final Reports Applicable to the State/National Level, and
- Other Preliminary Documents and Working Papers.

The publications listed may be obtained either from the Western Interstate Commission for Higher Education (WICHE) Publications Unit or from the authors.

## EXEMPLARY SEARCH FOR POSTSECONDARY-EDUCATION-RELATED DATA

To illustrate the use of the Reference Guide, a search for a specific type of information is provided on the next few pages. The information sought concerns the number of individuals who graduated from higher education institutions in each of the fifty states for the 1972-73 school year.

Step 1: Check the "Alphabetical Index to the Statewide Measures Inventory" under "Graduates (Postsecondary Education)." Measures 2180 and 4030 are referenced.

Step 2: Check the "Numeric List of Measures in the Statewide Measures Inventory" to determine the nature of measures 2180 and 4030. Measure 2180 is "Discontinuing Students" and Measure 4030 is "Instruction Programs, Courses of Study, and Activities - Completions."

Step 3: As both measures 2180 and 4030 may contain information about graduates of higher education institutions, one now goes to "Section I--Measures and Corresponding Data Sources." Under "2180 - Discontinuing Students" one discovers that there are no data sources listed with data available for the 1972-73 year. Under "4030 - Instruction Programs, Courses of Study, and Activities - Completions" one notes that there are five entries for the 1972-73 year: data sources 4, 37, 89, 90 and 272.

Step 4: Go to Section II. Check data source number 4 (ACE: Accredited Institutions), pp. 171-18 For that entry it can be seen that information about degrees is part of the information given only in that document's "Supplement to American Universities and Colleges." Since this title does not seem very promising, one checks the next data source--number 37 (EDSTAT II: ERD), C801-C1325. This data file contains information for 1970-71, 1971-72, and 1972-73 on such things as first-professional, bachelor's, master's, and doctor's degrees conferred in various discipline areas and other formal recognitions conferred. This seems to be the kind of information being sought. One can stop here or can continue looking at the other data sources mentioned in 4030. Continued checking shows that data source number 89 (NCFPE: NCFPEVT), C71-C72 contains information about the number of students completing postsecondary career schools' programs and the number of job placements in the field. Again, too narrow for the needs. The next data source, number 90 (NCFPE: TRINST71), is an example of the type of material contained in NCFPE: TRINST72 and NCFPE: TRINST73. Variables C293-C634 in these sources describe degrees conferred and other recognitions such as first-professional, bachelor's, master's, doctor's, and associate degrees, and other formal recognitions for 1970-71, 1971-72, and 1972-73. Data source number 90 also seems to be the kind of information being sought, so it merits further investigation.

One of the last paragraphs in the description of the NCFPE Data Base (page 4.1.207) states that "The National Center for Education Statistics took over management of the data base on January 10, 1974. It became

EDSTAT I and has since evolved into EDSTAT II (see data sources 37-42). The NCFPE data base is not being updated but is still available on tape at System Development Corporation's corporate computer facility." As EDSTAT II is being updated and is more easily accessible, data source number 37 seems to be the preferred source for data related to degrees.

The last reference to a data source with degree information for 1972-73 is number 272, (US Rehab: State Vocational Rehabilitation), pp. 9-246. The kind of data contained in those pages is related to the total number of rehabilitations accomplished by state vocational rehabilitation agencies per 100,000 population and per counseling man-year, and does not meet the requirements specified.

Step 5: Since the EDSTAT II: ERD data file contains the desired information, the final step is to contact the National Center for Education Statistics for further information about how to obtain statistics from the EDSTAT II: ERD file on the number of individuals who graduated from higher education institutions in each of the fifty states for the 1972-73 school year.

# NUMERIC LIST OF MEASURES IN
# THE STATEWIDE MEASURES INVENTORY

## (A) GENERAL INFORMATION ABOUT THE STATE

| | |
|---|---|
| Gross State Income | 1010 |
| Gross State Product | 1040 |
| Revenues - Total for State | 1070 |
| General Revenues - Total for State | 1080 |
| Taxes - Total for State | 1085 |
| Intergovernmental Revenues - Total for State | 1090 |
| Charges and Miscellaneous General Revenues - Total for State | 1095 |
| * Appropriations - Total for State | 1110 |
| * General Appropriations - Total for State | 1120 |
| * General Appropriations - Total for Education | 1125 |
| General Appropriations - Total for Postsecondary Education | 1130 |
| Expenditures - Total for State | 1150 |
| General Expenditures - Total for State | 1160 |
| General Expenditures - Total for Education | 1165 |
| General Expenditures - Total for Postsecondary Education | 1170 |
| Debt - Total for State | 1190 |
| Cash and Security Holdings - Total for State | 1200 |
| * Price Index | 1220 |
| * New Construction Activity - Value | 1250 |
| Housing Starts | 1260 |
| Vacancy Rate in Rental Housing | 1270 |
| Personal Income - Total | 1300 |
| Disposable Personal Income - Total | 1310 |
| Personal Consumption Expenditures - Total | 1320 |
| Family Income - Distribution | 1330 |
| Population - Total | 1340 |
| Intrastate Migrations | 1350 |
| Interstate Migrations | 1360 |
| Births | 1370 |
| Deaths | 1380 |
| * Morbidity Rate | 1390 |
| Population Receiving Public Assistance | 1400 |
| Public Offenses | 1420 |
| Voter Registrations | 1440 |
| Educational Attainment Level | 1460 |
| Education Enrollments - Total | 1500 |
| Secondary Education Institutions | 1510 |
| Postsecondary Education Institutions and Learning Centers | 1520 |

* Indicates that no data sources corresponding to these measures were identified.

## (B) STUDENT ACCESS

| | |
|---|---|
| * Potential Applicants to Postsecondary Education | 2010 |
| Applicants to Postsecondary Education Programs and/or Activities | 2030 |
| Postsecondary Education Applicants Accepted | 2050 |
| High School Graduates | 2070 |
| High School Graduates - Continuing to Postsecondary Education | 2080 |
| First-Time Entering Students - Undergraduate | 2100 |
| * First-Time Entering Students - First Professional | 2110 |
| * First-Time Entering Students - Graduate | 2120 |
| Transfer Students | 2150 |
| Continuing Students | 2160 |
| * Readmitted Students | 2170 |
| Discontinuing Students | 2180 |
| Student Migrations - Intrastate | 2200 |
| Student Migrations - Interstate | 2210 |
| Financial Aid - Total | 2250 |
| Average Cost to Student - Total | 2300 |
| Average Incurred Cost to Student - Out-of-Pocket | 2310 |
| * Average Cost to Student - Present Value of Foregone Income | 2320 |

## (C) MANPOWER

| | |
|---|---|
| * National Manpower Requirement - Total | 3010 |
| * State Manpower Requirement - Total | 3030 |
| * Local Manpower Requirement - Total | 3050 |
| National Civilian Labor Force - Total | 3110 |
| State Civilian Labor Force - Total | 3130 |
| Local Civilian Labor Force - Total | 3150 |
| National Civilian Labor Force - Employed | 3210 |
| State Civilian Labor Force - Employed | 3230 |
| Local Civilian Labor Force - Employed | 3250 |
| National Occupational Earnings - Average | 3310 |
| State Occupational Earnings - Average | 3330 |
| Local Occupational Earnings - Average | 3350 |
| * National Occupational Turnover Rate | 3410 |
| State Occupational Turnover Rate | 3430 |
| Local Occupational Turnover Rate | 3450 |

## (D) PROGRAMS

| | |
|---|---|
| Instruction Programs, Courses of Study, and Activities | 4010 |
| Instruction Programs, Courses of Study, and Activities - Completions | 4030 |
| * Research Programs and Activities | 4050 |
| * Research Programs and Activities - Completions | 4070 |
| * Public Service Programs and Activities | 4110 |
| * Public Service Programs and Activities - Completions | 4130 |
| * Certification and Licensing Examinations - Attempts | 4150 |
| Certification and Licensing Examinations - Successful Completions | 4170 |
| * Sponsored Project Proposals Submitted | 4210 |
| * Individuals Served by Support Programs | 4220 |
| Library Collections and Holdings | 4230 |

## (E) ENROLLMENTS

| | |
|---|---|
| Student Enrollment - Headcount | 5010 |
| Full-Time Students | 5040 |
| Part-Time Students | 5070 |
| Full-Time Equivalent Students | 5100 |
| In-State Students | 5150 |
| Out-of-State Students | 5170 |

## (F) FINANCES

| | |
|---|---|
| Total Assets - All Fund Groups | 6010 |
| Total Liabilities - All Fund Groups | 6050 |
| * Total Fund Balances - All Fund Groups | 6090 |
| Total Additions - All Fund Groups | 6110 |
| Total Deductions - All Fund Groups | 6150 |
| Total Net Change in Fund Balances - All Fund Groups | 6190 |
| Total Current Funds Revenues | 6210 |
| Total Current Funds Expenditures | 6310 |
| Instruction Expenditures | 6330 |
| Research Expenditures | 6340 |
| Public Service Expenditures | 6350 |
| Academic Support Expenditures | 6360 |
| Student Services Expenditures | 6370 |
| Institutional Support Expenditures | 6380 |
| Independent Operations Expenditures | 6390 |
| Scholarship and Fellowship Expenditures | 6410 |
| Capital Asset Expenditures | 6430 |
| Compensation Expenditures | 6450 |
| * Full Cost per Semester Credits | 6510 |
| * Full Cost per Contact Hours | 6530 |
| * Full Cost per Course Enrollments | 6550 |
| * Full Cost per Full-Time Equivalent Student | 6570 |

## (G) STAFF

| | |
|---|---|
| Staff - Headcount | 7010 |
| Full-Time Staff | 7040 |
| Part-Time Staff | 7070 |
| Full-Time Equivalent Staff | 7100 |
| * Staff Activity Workload - Average | 7130 |
| Student-Faculty Ratio | 7210 |

## (H) FACILITIES

| | |
|---|---|
| * Land Area | 8010 |
| * Gross Area | 8030 |
| Assignable Area | 8050 |
| Nonassignable Area | 8070 |
| Enrollment Capacity | 8110 |

## (H) FACILITIES (Continued)

| | |
|---|---|
| * Design Capacity | 8140 |
| * Estimated Replacement Value | 8210 |
| * Average Section Size (AvSS) | 8310 |
| * Average Square Feet per Weekly Student Hour (AvSFWSH) | 8410 |
| * Average Room Utilization Rate (AvRUR) | 8420 |
| * Average Station Occupancy Ratio (AvSOR) | 8430 |
| * Average Station Utilization Rate (AvSUR) | 8440 |
| * Occupancy Rate | 8510 |

## [37-42] EDSTAT II

The National Center for Education Statistics (NCES) has recently implemented a large-scale on-line national educational statistics facility called EDSTAT II. This system, a follow-on effort to the National Commission on the Financing of Postsecondary Education's EDSTAT I (see NCFPE Data Base 84-97), provides information retrieval capabilities anywhere in the United States for a nominal computer charge. Retrieval is performed by entering English language-like commands on a teletypewriter with computer reports generated almost immediately by a computer and typed out at the user's terminal.

Currently NCES is maintaining several Higher Education General Information Survey (HEGIS) files on line. These include statistics on institutional enrollment, finance, earned degrees, employees, and physical facilities. In addition, a number of files for previous years are maintained off-line, but can be called up for use under the EDSTAT II System. NCES is planning to diversify its library on EDSTAT data bases throughout the next year to include data from other NCES and Census data bases.

The following files are either currently or potentially available under the EDSTAT II system:

Currently Available:

U.S. National Center for Education Statistics. "Postsecondary Vocational Education - Directory (1971)." Washington, D.C.: 1970-71. [42]

---- Higher Education General Information Survey (HEGIS). "Degrees and Other Formal Awards Conferred." Washington, D.C.: 1970-71, 1971-72, 1972-73. [37]

---- ---- "Financial Statistics of Institutions of Higher Education." Washington, D.C.: 1970-71, 1971-72, 1972-73. [38]

---- ---- "Institutional Characteristics of Colleges and Universities." Washington, D.C.: 1970-71, 1971-72, 1972-73, 1973-74, 1974-75. [39]

U.S. National Center for Education Statistics. Higher Education General Information Survey (HEGIS). "Opening Fall Enrollment in Higher Education." Washington, D.C.: 1970-71, 1971-72, 1972-73, 1973-74, 1974-75. [40-41].

Available Soon:

U.S. Bureau of the Census. "Census Educational Information." Washington, D.C.: 1973.

U.S. Bureau of the Census and U.S. National Center for Education Statistics. "Census/ELSEGIS." Washington, D.C.: 1970.

U.S. National Center for Education Statistics. Higher Education General Information Survey (HEGIS). "Basic Student Charges." Washington, D.C.: 1970-71 forward.

---- "Vocational Education Basic Grants, Teachers and Enrollments in Vocational Education at the State Level." Washington, D.C.: 1971-1974.

Some Prospective Development Activities:

U.S. Bureau of the Census. "Census Data by School District." Washington, D.C.: 1970.

U.S. National Center for Education Statistics. "Adult Education Participation." Washington, D.C.: 1969, 1972.

---- "Elementary and Secondary Education General Information Survey (ELSEGIS)." Washington, D.C.

---- "National Longitudinal Survey for High School Seniors." Washington, D.C.

---- Higher Education General Information Survey (HEGIS). "Advanced Degrees." Washington, D.C.: 1970-71 forward.

---- ---- "Employees." Washington, D.C.: 1970-71 forward.

---- ---- "Libraries." Washington, D.C.: 1971.

---- ---- "Physical Facilities." Washington, D.C.: 1970-71 forward.

---- ---- "Student Residence and Migration." Washington, D.C.: 1968-69, 1972-73.

U.S. Office for Civil Rights. "Postsecondary." Washington, D.C.: 1970 forward.

U.S. Office for Civil Rights. "Elementary/Secondary." Washington, D.C.: 1970 forward.

| NOTE: "It is the intent of this report to provide a detailed rating of the undergraduate programs of nearly all of the colleges and universities in the United States....The rating symbols used for the individual items are A,B,C, and D [similar to a grading system] ....For those schools that have not been in existence for at least ten years, the department's rating is given only as an X. This symbol will also be used for those items and departments in any school when it is felt that not sufficient information is available to adequately rate that item or department. An X is used to rate all the pre-professional studies." pp. IX-X. | | | | |

| State roundup, pp. 442-511.<br>NOTE: The "state roundup of educational developments is based on information obtained from a questionnaire sent to the chief state school officers. The officers were asked to report on significant changes or innovations in education in their states for the 1971-1972 school year. Since many developments had their origin in decisions, events, and programs that came earlier, information was requested on these matters also. The major areas covered in the questionnaire were finance, curriculum, governance, legislation, personnel, and research. Most of the states were very cooperative, answering the questionnaire and sending in addition annual reports, project reports, and news releases. For those states that did not respond to the questionnaire, information was gathered from various news sources." p. 442. | | | | |

[84-97] NCFPE Data Base

The Education Amendments of 1972 contained a provision establishing a National Commission on the Financing of Postsecondary Education (NCFPE). This commission was charged with developing an analytical framework to be used to service existing financing programs and to recommend new financing methods and policies that would most effectively serve the national interest. The staff of the NCFPE built a national data base on postsecondary education for use in the analysis of national policies for financing postsecondary education. The *NCFPE National Postsecondary Education Data Base Directory* (Washington, D.C.: Government Printing Office, 1974) provides file formats and codes for users of this data base. Explanations of the data base's availability, data management language, and data processing capabilities can be obtained from *Financing Postsecondary Education in the United States* (Washington, D.C.: Government Printing Office, 1973); "Towards a National Data Base for Postsecondary Education," in the *Proceedings* of the first Annual CAUSE Conference; and *A Framework for Analyzing National Policies of Financing Postsecondary Education: A Description of a National Data Base and Planning Model* (Washington, D.C.: Government Printing Office, 1974).

The commission's data base currently consists of twenty-two direct access computer files with about 110 million bytes (characters of data). The files contained in the National Commission on the Financing of Postsecondary Education Data Base (as of January 1974) are:

|  | File | Contents | Status |
|---|---|---|---|
| (1) | CALVERT | U.S. Office of Education. "Vocational Education Directory Survey, 1970-71." [84] | Public |

| (22) | VOLSUP72 | Council for Financial Aid to Education. "Voluntary Support Survey, 1971-72" [97]. | Public |

Eight of these files are described in the Reference Guide --those that could be aggregated by state with the majority of states represented.

The National Center for Education Statistics took over management of the data base on January 10, 1974. It became EDSTAT I and has since evolved into EDSTAT II (see data sources 37-42). The NCFPE data base itself is not being updated, but is still available on tape at System Development Corporation's corporate computer facility.

# APPENDIX B

## ANNOTATED LIST OF CURRENT NCHEMS DOCUMENTS RELATED TO STATE/NATIONAL POSTSECONDARY EDUCATION PLANNING & DECISION MAKING

## FINAL STATE/NATIONAL REPORTS

These documents are final products of state or national projects of NCHEMS. Copies are available from the WICHE Publications Unit, P.O. Drawer P, Boulder, Colorado 80302.

1. Wing, Paul. Statewide Planning for Postsecondary Education: Conceptualization and Analysis of Relevant Information. March 1972.

   -A general frame of reference for considering the problems of statewide agencies that plan for and coordinate postsecondary education institutions and programs.

2. Wing, Paul and Tsai, Yung-mei. Report of a Survey of Current Enrollment Forecasting Practices of State Higher Education Agencies. October 1972.

   -Summarizes a 1972 survey of enrollment forecasting practices at selected state higher education agencies and state community/junior college boards.

3. Huckfeldt, Vaughn. A Forecast of Changes in Postsecondary Education. 1972.

   -The complete analysis and forecast of changes in postsecondary education from the NCHEMS Delphi survey of 385 individuals associated with postsecondary education.

4. Huckfeldt, Vaughn. Change in Higher Education Management. 1972.

   -A summary of the results of the forecast of changes in postsecondary education and an analysis of the impact of the changes on planning and management systems in postsecondary education.

5. Martin, James S. and Wing, Paul. A Manual on State Level Application and Implementation of the NCHEMS Student Flow Model SFM-IA. 1973.

   -A discussion with illustrative applications of several possible state level uses of the software for an institutional student flow model (SFM-IA).

6. Huckfeldt, Vaughn. A Federal Planning Model for Analysis of Accessibility to Higher Education: An Overview. 1973.

   -A nontechnical discussion of the first prototype model produced by the National Planning Model project.

7. Huckfeldt, Vaughn, Weathersby, George, and Kirschling, Wayne. A Design for a Federal Planning Model for Analysis of Accessibility to Higher Education. 1973.

   -A documentation of the assumptions, design consideration, prototype model relationships, and possible future research for the first prototype model produced by the National Planning Model project.

8. Weldon, Kent and Huckfeldt, Vaughn. Prototype Software for a Federal Planning Model for Analysis of Accessibility to Higher Education. 1973.

   -A complete listing of the prototype software for the first prototype model produced by the National Planning Model project.

9. Weldon, Kent and Huckfeldt, Vaughn. Preliminary Operating Instructions for a Federal Planning Model for Analysis of Accessibility to Higher Education. 1973.

   -A report that presents very preliminary instructions for using the first prototype model developed by the National Planning Model project.

10. Huckfeldt, Vaughn. Preliminary Data for a Federal Planning Model for Analysis of Accessibility to Higher Education. 1973.

-A preliminary report to illustrate the types of data used in the preliminary tests of the first prototype model developed by the National Planning Model project. This report contains all of the prototype data values, a description of each variable, and the current source of the data.

11. Huckfeldt, Vaughn. Preliminary Test Reports from a Federal Planning Model for Analysis of Accessibility to Higher Education. 1973.

-A complete set of current output reports illustrating the operational status of the first prototype model developed by the National Planning Model project.

12. Wing, Paul and Romney, Leonard. An Examination of Possible Statewide Applications and Extensions of the NCHEMS Program Classification Structure. Technical Report 50. October 1974.

-A discussion of uses of the NCHEMS Program Classification Structure as a basis for classifying institution/discipline programs, with special reference to possible applications and uses at the state level.

13. Wing, Paul. Higher Education Enrollment Forecasting - A Manual for State Level Agencies. 1974.

-A manual to provide enrollment forecasting practitioners with guidance in the use of specific forecasting techniques and procedures, and to suggest ways of classifying and labeling forecasting techniques.

14. Allman, Katherine A., Wing, Paul, and McLaughlin, James N. Statewide Measures Inventory (An Inventory of Items of Information Relevant to Statewide Post-secondary Education Planning and Management). Technical Report 68A. 1975. (Available in May 1975).

-A detailed list of information items relevant to postsecondary education planning and management at the state level, including specific definitions, suggestions concerning aggregation procedures, and general applications.

15. Wing, Paul, McLaughlin, James N., and Allman, Katherine A. An Overview and Guide to the Use of the Statewide Measures Inventory. Technical Report 68B. 1975. (Available in May 1975).

-A companion document to the Statewide Measures Inventory.

16. Weldon, Kent and Huckfeldt, Vaughn. Operating Instructions for a National Planning Model. 1975.

-This report presents the instructions for using the operational version of the NCHEMS National Planning Model which was installed on the HEW/USOE computer system in 1974.

17. Huckfeldt, Vaughn and Smith, Mark. A Preliminary Sensitivity Analysis of the National Planning Model. 1975.

-This document describes the results of a preliminary sensitivity analysis of the model along with a discussion of the cost of a full sensitivity study of the model and a description of the tasks necessary to improve utilization of the model.

18. Huckfeldt, Vaughn and Judd, Robert. Methods for Large-Scale Delphi Studies. 1975.

-This document presents the methodology used by NCHEMS in conducting the 1972 large-scale Delphi with specific attention given to a number of technical and logistical problems that can be encountered in such a study.

19. Huckfeldt, Vaughn and Smith, Mark. Large-Scale Delphi System Software. 1975.

-A complete documentation of the computer software developed for the NCHEMS Delphi survey. This software is available as Type II NCHEMS software, available at the distribution cost but with no guarantee or program support.

20. Huckfeldt, Vaughn. Data from the NCHEMS Future Planning and Management System Survey. 1975.

-A complete documentation of the NCHEMS Delphi survey data base, which is available at the distribution cost to anyone wanting to do additional research on the data.

## PRELIMINARY STATE/NATIONAL

## DOCUMENTS OR WORKING PAPERS

These documents are not yet in final form. Persons interested in obtaining copies should contact directly the author whose name is starred.

1. Tsai, Yung-mei. Sociological Determinants of College Attendance: Some Causal Models. December 1973. (Copies available through Paul Wing).

   -An empirical study of factors related to college attendance of high school seniors based on data from several Colorado high schools.

2. McCoy, Marilyn* and Kirschling, Wayne. Cell Counting -- A Practical Approach to Understanding Categorical Data. April 1974.

   -A description with examples of a statistical technique for analyzing categorical data (e.g., discrete choices, student level categories).

3. Allman, Katherine A.* A Checklist of Selected Postsecondary Education Terms and Types of Aggregations. May 1974.

   -A checklist which identifies the descriptions and categorizations of terms developed by NCHEMS projects and by other agencies.

4. Huckfeldt, Vaughn.* A Preliminary Framework for the State Postsecondary Education Planning Model. November 1974.

   -A general description of the objectives, structure, and examples of designs to be used with a model designed to assist planners in assessing the impacts of alternative financing plans and resource allocations.

5. Wing, Paul* and Romney, Leonard. Student Programs in Postsecondary Education: Considerations for State Agencies. November 1974.

   -A preliminary discussion of categories of information that are relevant for describing student programs in postsecondary education.

6. Cherin, Ellen, Chisholm, Mark, Huckfeldt, Vaughn*, and Smith, Mark. State Postsecondary Education Planning Model Software System. February 1975.

   -Documentation of Version 2.0 of the State Postsecondary Education Planning Model. This is the Phase I pilot test version of the model.

7. Allman, Katherine A., Wing, Paul*, and McLaughlin, James N. A Proposed Taxonomy of Postsecondary Education Subject Matter Areas. 1975.

   -A preliminary, unified postsecondary education subject matter taxonomy developed in response to difficulties of community/junior colleges and state 1202 commissions with currently available taxonomies.

8. Wing, Paul.* A General Discussion of Classification Systems for Postsecondary Education Subject Matter. June 1975.

   -A discussion of subject matter taxonomies covering such things as the characteristics of an "ideal" taxonomy and the strengths and weaknesses of existing taxonomies.

9. Cherin, Ellen and Huckfeldt, Vaughn.* State Postsecondary Education Planning Model Data Procedures Manual. 1975.

   -This document provides a framework for SPEPM data and suggested procedures and sources for data to support use of the SPEPM.

10. Miller, JoAnn H. NCHEMS Users' Manual for the Conditional Logit Analysis Statistical Estimation Package. 1975. (Copies available through Vaughn Huckfeldt.)

    -This manual describes the set-up and running of the conditional logit software as currently implemented by NCHEMS. Conditional Logit Analysis is a statistical technique for estimating the importance of variables that may explain choices (e.g., student choice of which institution to attend). Neither the software or manual is an NCHEMS product, but they are being shared with others, at the cost of distribution, with no guarantee or program support.

11. Chisholm, Mark.* Interactive Delphi Software System. 1975.

    -This document describes the software and operating instructions for a system of programs implemented on the GE Mark III Timesharing System to carry out a Delphi session with a medium sized panel.

12. Smith, Mark and Huckfeldt, Vaughn.* A Planning Model Design Evaluation System. 1975.

    -This document describes the software and operating instructions for using a computerized system to evaluate different SPEPM designs and to recommend alternative improved designs.

13. McCoy, Marilyn*, Kirschling, Wayne, Weldon, Kent, and Cherin, Ellen. State Financial Support of Higher Education. A Case Study. April 1975.

    -An exemplary analytical case study that examines a number of possible indices of state aid for higher education.

## OTHER FINAL REPORTS APPLICABLE

## TO THE STATE/NATIONAL LEVEL

These documents, which were not prepared specifically for a state/national level audience, are available from the WICHE Publications Unit, P.O. Drawer P, Boulder Colorado 80302

1. Collier, Douglas J. Higher Education Finance Manual. Technical Report 69. 1975.

   -A document describing procedures and display formats for institutional financial information. The information categories for revenues and expenditures have been adopted by the National Association of College and University Business Officers (NACUBO) and the American Institute of Certified Public Accountants (AICPA) as standards for categories for use in institutional accounting systems. They are also being used in the financial section of the Higher Education General Information Survey.

2. Micek, Sidney S. and Arney, William Ray. The Higher Education Outcome Measures Identification Study, A Descriptive Summary. 1974.

   -A summary of the responses by various types of agencies and institutions to a questionnaire concerning the types of outcome information felt to be relevant for planning and decision making.

## OTHER PRELIMINARY DOCUMENTS

## AND WORKING PAPERS

These are working documents prepared as part of other NCHEMS projects. Persons interested in obtaining copies should contact the author whose name is starred.

1. Kirschling, Wayne* and Staaf, Robert. Understanding Choice in Postsecondary Education: A Cell-Counting Approach. August 1974.

   -The introduction and description of an analytical technique appropriate to the study and understanding of the choices made by students, faculty, institutions and so forth.

2. Williams, Richard C.* and Kirschling, Wayne. Impact of Federal Grant Programs on Enrollment in Postsecondary Education: Analytical Use of Cell-Counting Method. March 1975.

   -An exploration of the use of the cell-counting method (a technique useful for analyzing categorical data) which focuses on the impact of federal aid on enrollments in postsecondary education.

3. Kirschling, Wayne* and Weldon, Kent. An Analysis of the Allotment Formula for the SSIG Program in H.R. 3471. March 1975.

   -An evaluation of the likely impact on individual states of the allotment formula for the State Student Incentive Grant Program proposed in H.R. Bill No. 3471, including a discussion of the shortcomings of currently available data.

## Advisory Structure for the
## NATIONAL CENTER FOR HIGHER EDUCATION MANAGEMENT SYSTEMS at WICHE

### BOARD OF DIRECTORS

**George Kaludis** (Chairman)
Vice-Chancellor, Operations
and Fiscal Planning,
Vanderbilt University

**Marvin Wachman** (Vice-Chairman)
President,
Temple University

**Fred E. Balderston**
Chairman, Center for Research in
Management Science and Professor
of Business Administration,
University of California, Berkeley

**Max Bickford**
Executive Officer,
Kansas State Board of Regents

**Allen T. Bonnell**
President, Community College
of Philadelphia

**Ronald W. Brady**
Vice-President for Planning and
Allocation, University of Illinois

**Adrian R. Chamberlain**
President,
Colorado State University

**Lattie F. Coor**
Vice-Chancellor,
Washington University

**Kenneth Creighton**
Associate Vice President for
Finance and Controller,
Stanford University

**James F. Gollattscheck**
President,
Valencia Community College

**Patricia Geuder**
Assistant Professor of English,
Department of English,
University of Nevada, Las Vegas
